Support for this publication was provided by the USAID Bureau for Global Health.

USAID/BASICS (Basic Support for Institutionalizing Child Survival) is a global project to assist developing countries in reducing infant and child mortality through the implementation of proven health interventions. BASICS is funded by the U.S. Agency for International Development (contract no. GHA-I-00-04-00002-00) and implemented by the Partnership for Child Health Care, Inc., comprised of the Academy for Educational Development, John Snow, Inc., and Management Sciences for Health. Subcontractors include the Manoff Group, Inc., the Program for Appropriate Technology in Health, and Save the Children Federation, Inc.

The Prevention of Postpartum Hemorrhage Initiative (POPPHI) is a USAID-funded, five-year project focusing on the reduction of postpartum hemorrhage, the single most important cause of maternal deaths worldwide. The POPPHI project is led by PATH and includes four partners: RTI International, EngenderHealth, the International Federation of Gynaecology and Obstetrics (FIGO), and the International Confederation of Midwives (ICM).

This publication is one in a series that make up the USAID/BASICS Newborn Health tool kit. The tool kit comprises:

- Reference Manual
- Technical Presentations
- Facilitator's Guide
- Participant's Notebook
- Clinical Logbook
- Tools for Monitoring and Evaluation

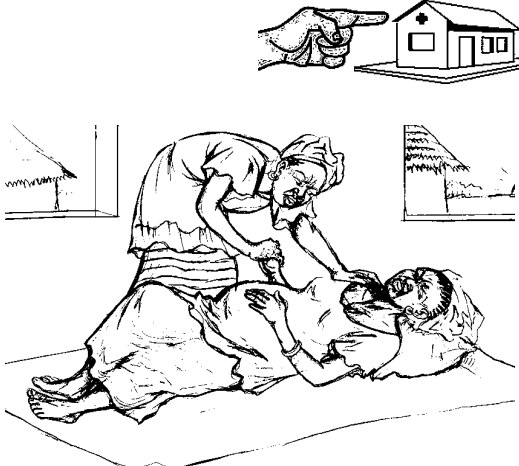

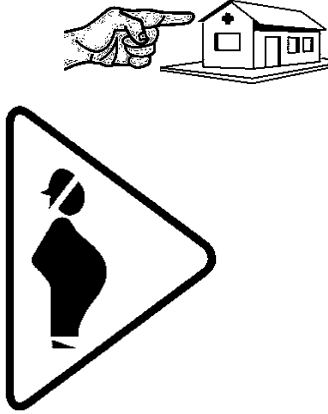

INTERVENTION EN SANTE PERINATALE ET NEONATALE

CAHIER D'ACTIVITES DE LA MATRONE

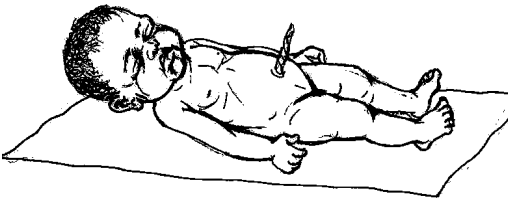

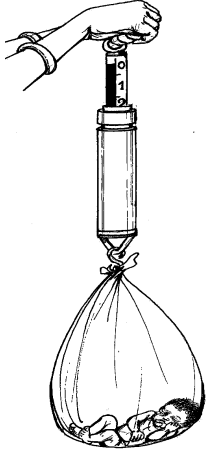

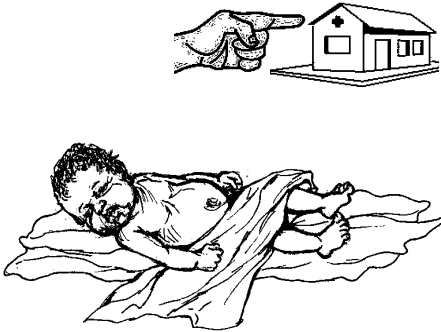

Case de santé de ..... Activités de la période de .....

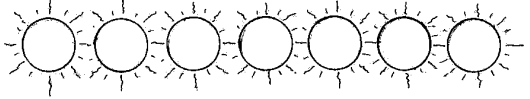

# I GROSSESSE ACCOUCHEMENT ET REFERENCE

Mois	Nombre d'accouchements effectués par les matrones	nombre d'accouchements référés	nombre de grossesses avec facteur morbide identifiées et référées
			
 <p>.....</p>			
 <p>.....</p>
